

The Youth on Purpose program has been offered several times in Sweden and Canada since 1997.

Testimonials

"I learned the most important tool for happiness: Choice. I choose to be free and be happy."
-Ryan Coleman

"Without this program I truly believe my son's life would have been squandered, and mine with it. Youth on Purpose has saved us both."
-Donalee Coleman

"Now I have a great relationship with my mother. Without the support of the Fri Sikt [Youth on Purpose in Sweden] staff, and the other youth, I doubt I would have this relationship with my mother today."
-Jonas Eklund

"I developed a much clearer way of expressing myself and relating to other people. Today I carry with me a greater sense of myself and how to communicate with my parents and my partner."
-Petra Stahl

"I have never felt so good about myself in my whole life and I am really glad I decided to go to Youth on Purpose camp and follow-up program. I think this program would benefit every youth. If we worked towards empowering youth and helping them realize their dreams, the world would be a better place."
-Justin Mallard

Vision

Co-created by youth and adults, this program utilizes the skills, talents, and passions of youth to help guide them to their authentic Selves, thus fostering a closer connection to their families, local communities, and the world.

Mission

Our mission is to facilitate the process of ending separation. In doing so, we remember our innocence and our source, while recognizing it in others. We live and demonstrate our commitment to this process, to each other, to youth, to parents, peers, and our community. The process releases blocks to self-expression, and clears limiting beliefs. This leads to the creation of living communities where the end of separation is experienced and enjoyed.
